DoD Product Data Utility (PDU) Pilot

- DSCP Awarded 90 day Contract to SAIC/Comergent to do pilot with BD
  - DAPA data
  - Owens and Minor Distributor data
  - Cardinal Distributor data
- Pilot Killer Application to Attract Manufacturers to DoD PDU

Scope of BD Pilot (January- April)

1. **BD provides PICS data available from SAP. Validate current BD data feeds to pilot participants against Data Fields/Implementation Conventions for Data for HCEC/CHeS Product Information Component Sets. Fine tune PICS standards working with HCEC.**
2. **Edit of BD provided data to assure accuracy—ANSI standards and PICS**
3. **Document and create outputs in required formats (832, XML, text, excel) for BD's major supply chain partners**
4. **Pilot the Killer Application to attract manufacturers**
5. **Begin creating a Data Audit Tool for Mfg Data to Assure data is complete and accurate**
6. **Data field matching/correction major supply chain partners (Owens and Minor, DoD and Cardinal in pilot)**
